

6zero5 mainly flies large soft kites. Paul has over 30 kites that are 125 square feet or larger in size. He also has some large Crown Bols. His kite named H.O.B.O. is the largest sport ParaForm kite in the world at 2200 square feet. It's 40' x 55' footprint is impressive and majestic. He also has a 30' x 50' U.S.A. flag that gets flown under a 450 square foot "Patriot One" FlowForm. We're so glad they can be with us for a 3rd year! We missed you last year and are glad you're able to be with the kite family again!

Team 6zero5:
Ted, Cathi &
Paul Newcomb
Aberdeen, SD

Mike decorates the sky with massive sized line laundry, parafoils and sleds. If the wind is smooth he'll occasionally get out his crowns. Mike enjoys traveling to kite festivals and also conducts kite building seminars and performs demonstrations. Mike is the co-coordinator of the Jamestown Kite Festival June 7, 8 & 9. It's always great to see your kites in the sky, welcome back to Skyfest, we missed you last year Mike!

Mike Gee
Jamestown, ND

Please say Thank You to all of these great sponsors.

Without them, none of this would be possible.

Darwin & Berna Smith
Mandan, ND

Darwin and Berna Smith are the coordinators of the Mandan Family Kite Festival the weekend after Skyfest. The couple presents a lovely ground and banner display as well as several colorful windsocks. Check out their new Awareness Banner display! Its great to have you back for another year at Skyfest!

Paul flies all types of kites and really enjoys kite bugging.

Paul Leutzen
Minot, ND

He travels around the state entertaining and visiting with other kite flyers.

His favorite kite is a square stack. Here's to another great year at Skyfest with our friend Paul!

Chris Dodson
Jamestown, ND

Chris' wind driven instruments create a musical atmosphere on the flying field. Take a walk over to his display and enjoy the "earthy" sounds of gourds, wind harps, air violins and much more. Chris is co-coordinator of the Jamestown Kite Festival June 7,8 & 9. Chris also flies kites & inflatables - look for black and red dragon! Music fills the air when you join us at Skyfest!

Check out his stuff at www.gotwindmakemusic.org

Tom White
Winnipeg, Manitoba,
Canada

Tom's passion is soft form dual and quad line kites. He sews all of his NASA para-wing stunt kites. There are several free plans on his website http://members.shaw.ca/kiteman/index/htm

Thanks for crossing the border to hang out with us on the flying field during another Skyfest!

Dusty Colon
 Fargo, ND

Dusty has been flying kites for about 6 years. He started with single line kites and eventually moved to quad line power kites. At kite festivals he enjoys doing kite aerial photography where he attaches a GoPro camera to his kite line in order to get an aerial video of the event. After the festival you can find what he captures on YouTube. He enjoys kiteboarding in the winter using large inflatable quad line kites on frozen lakes in Minnesota & North Dakota. Recently he got into kite bugging where he uses a quad line foil kite and 3 wheeled buggy to pull him across the terrain.

Tony and Ann make kites designed especially for the strong, gusty Midwest winds. Both are retired and enjoy traveling to kite festivals across the Midwest. Tony has teamed up with Premier Kites promoting a series of licensed kites designed by him. Thanks for joining us again this year for Skyfest!
